HM HARRIS MORAN SEED COMPANY · CLAUSE VEGETABLE SEEDS

TUTTI SUN F1*

VERY SWEET, WITH A DEEP ORANGE COLOR!

- Beautiful, uniform small fruits with thin skin, dense flesh that is very sweet and flavorful.

BALLISTIC F1

THE EARLY-MATURING SMOOTH VARIETY

- A short, smooth and early-maturing cucumber.
- Highly productive, yealding 1 to 2 fruits per plant per day!
- Good flavor, no bitterness.

CHOUCA F1

THE EARLY-MATURING, HARDY RED PEPPER

- Compact and hardy plant.
- High yield, turns red quickly when ripe.

FROSTINE F1

THE WINTER BATAVIA LETTUCE!

- Wide range of uses, vigorous variety, stores well in the garden.

BELAPPIA F1

THE NEW REFERENCE VARIETY FOR WINTER!

- Wide range of uses, vigorous in cold weather.
- Very attractive, compact plant that does not bolt.

DIAMANDIA F1

TOMATOES AT THE HEART OF YOUR GARDEN!

- The PREMIUM Red Heart variety.
- Good heat tolerance, productive all summer long.
- Minimal waste due to cracking or yellow neck.

HMC 44726 (BUFFALOBLACK) F1**

THE NEWEST ADDITION TO THE BUFFALO FAMILY!

- A short, vigorous plant suitable for the garden, lush foliage.
- Large, slightly ribbed fruits.
- Juicy flesh that melts in your mouth, with unique aromas, very tasty.

GENERAL INFORMATION: The descriptions, illustrations, photographs, advice, suggestions, and vegetation cycles that may be presented herein are aimed at experienced professionals and are derived from observations made in controlled conditions in various trials. They are offered in all good faith, for purely informational purposes, and shall not therefore, under any circumstances, be held to be exhaustive, be taken as any form of guarantee of harvest or performance, prejudge specific factors or circumstances (either current or future), and more generally, form any kind of contractual undertaking whatsoever. The user must first and foremost ensure that his exploitation conditions, local geographical conditions, his planned growing period, his soil, the means at his disposal (such as technical knowledge and experience and cultural techniques and operations), his resources (such as tests and control methods) and his equipment, and more generally his agronomical, climatic, sanitary, environmental and economic context are suitable for the crops, techniques and varieties that are presented herein (see also our Terms and Conditions of Sale). Technical data and disease resistance ratings shown are averages of results from observations at various locations, under different conditions, and laboratory tests. It is not a prediction of future performance but a summary of past results. Seed performance, yield, and crop results will vary depending on geographic areas, environmental conditions and pressures, field growing and management practices, and the presence of pests or pathogens.
New, unknown, and/or atypical pathogen strains may overcome the resistance of the seed. All the varieties illustrated in this publication were photographed in favorable conditions and no guarantee can be provided that results will be identical under different conditions.

IMPORTANT NOTICE: All intellectual property rights reserved. Illegal reproduction and/or exploitation is forbidden. Violation of these rights may constitute a serious offence that is prosecutable by Law. For further information see: www.hmclause.com.
