

Tomato plants: GOURMANDIA F1 has earned its place in your vegetable garden!

The GOURMANDIA F1 heart-shaped tomato has confirmed its qualities as a delicious, meltingly soft tomato.

A national survey of 80 consumers during this summer's CLAUSE Tomato Tour revealed that GOURMANDIA F1 is the best in its class. 90% of people who tasted it enjoyed its flavor, its meaty texture with few seeds, its sweetness and its heart shape with a pointed tip.

Don't miss out! Make room for GOURMANDIA in your vegetable garden. This robust, productive plant can produce up to six or seven clusters per stalk. You'll also enjoy its resistance to a number of diseases, making it an easy crop to grow! Try it in a salad with Buffalo mozzarella and some Nyons olive oil!

You'll find the GOURMANDIA F1 tomato in garden centers, self-service gardening stores and DIY stores in the vegetable plants sections.

Valence, France, November 21, 2014

HM.CLAUSE S.A. breeds, produces and sells innovative types of vegetable seeds for professionals and for the vegetable garden market, with more than two centuries of experience. It is France's leading vegetable seed company. A French company, it has been a major player in variety breeding for vegetable gardens for over two centuries. Two of the company's departments are dedicated exclusively to promoting varieties for amateur gardeners. One is specialized in the sale of vegetable and flower seeds to packet producers, the other in the sale of vegetable seeds for professional producers of nursery plants.

HM.CLAUSE is part of Limagrain, a co-operative group that was established and is run by farmers. Limagrain specializes in field seeds, vegetable seeds and cereal products. It is the world's 4th largest seed producer and the largest of its kind in Europe.
